SUMMARY

DevOps and Infrastructure-focused Software Engineer with 2 years of experience in Linux, CI/CD, cloud infrastructure, containerization, and automation. Hands-on experience with Docker, Jenkins, GitLab CI/CD, Ansible, AWS, Azure, Nginx, and OpenStack, supporting production deployments, infrastructure automation, monitoring, and distributed storage. **RHCSA certified** and currently preparing for **Azure AZ-104**, with a focus on cloud infrastructure, DevOps, automation, and distributed systems.

EXPERIENCE

Junior Software Engineer

Jan 2025 – Present

Dynamic Solution Innovators (DSi)

• Infrastructure & DevOps

- * Worked as an infrastructure-focused engineer on a US-based FinTech platform, supporting **4 environments**: Dev, Pilot, Stage, and Production.
- * Designed and maintained **4 Jenkins clusters**, one per environment, with **3+ CI/CD pipelines per cluster** running on dedicated machines.
- * Automated deployment and operational workflows across **12+ dedicated pipeline machines**, reducing repetitive manual infrastructure tasks.
- * Developed **Ansible automation** for recurring server operations, including path mounting and environment validation across multiple servers.
- * Used **Datadog** for production monitoring, troubleshooting application and infrastructure issues, and supporting incident resolution.
- * Designed and implemented **3-node OpenStack Swift clusters** in both Pilot and Production for distributed storage, replication, and disaster recovery.

• CI/CD & Automation

- * Managed application deployment cycles across **4 environments**, supporting releases, production troubleshooting, and deployment-related issue resolution.
- * Built and maintained CI/CD workflows using **Jenkins, GitLab CI/CD, GitHub Actions, Docker, and Ansible**.
- * Investigated slow Jenkins pipelines by analyzing build stages, deployment workflows, and infrastructure bottlenecks.

• Backend Engineering

- * Developed and maintained **Java Spring Boot microservices** for a US-based FinTech platform, including R&D, POCs, bug fixing, and deployment-related troubleshooting.
- * Developed **ASP.NET Core microservices and REST APIs** for a World Bank-funded Bangladesh Government project.
- * Worked with **PostgreSQL, MongoDB, OracleDB, Docker, Nginx, GitLab, Jenkins, and GitHub Actions** across application and infrastructure environments.

- Instructed junior CSE and IIT students in **C, C++, Data Structures, and Algorithms** for programming contests; conducted classes, mentored students, organized programming contests, and served as a judge and problem setter for CodeElevate Camp 2023.

EDUCATION

Jahangirnagar University

Savar, Dhaka

*B.Sc. in Computer Science and Engineering – CGPA: 3.46/4.00**Feb 2019 – May 2024*

- Relevant coursework: **Operating Systems, Computer Networks, Database Systems, Distributed Systems, Software Engineering, Data Structures & Algorithms.**

CERTIFICATIONS

Red Hat Certified System Administrator (RHCSA)

Dec 2025

*Red Hat – Credential ID: 250-195-955**Expires: Dec 2028***Introduction to Database with SQL**

Dec 2024

CS50, Harvard University

TECHNICAL SKILLS

Programming Languages: Java, C#, Python, C/C++, JavaScript**Backend & Frameworks:** Spring Boot, ASP.NET Core, Django, Odoo, REST APIs, Microservices Architecture**Databases:** OracleDB, PostgreSQL, MongoDB, MySQL**DevOps & Tools:** Docker, Ansible, Jenkins, GitHub, GitLab, Nginx, Jira**Cloud & Infrastructure:** AWS, Azure, OpenStack, Linux Server Administration, System Deployment**Systems & Concepts:** Microservices, System Design, Distributed Systems Basics

COMPETITIVE PROGRAMMING

Onsite Contests

- * ICPC Asia Dhaka Regional Contest - 2022
- * ICPC Asia Dhaka Regional Contest - 2023

Online Platforms

- * Codeforces (imnasim3.1415) – Max rating: 1502, 1500+ problems solved
- * CodeChef (imnasim3.1415) – Max rating: 3* (1720)
- * UVa (imnasim3.1415) – 300+ problems solved
- * VJudge (nasim_28_391) – 700+ problems solved
